Dear Mr Clemmetson

**NAV 6 NAVTEX receiver**

Thank you for your letter of 17 December – I am replying on behalf of Rob Andrews.

I can confirm that the NAV 6 NAVTEX equipment for which you copied us the Certificate of Conformance is fully acceptable for fitting to **Non-Directive Fishing Vessels**. These vessels are defined in Statutory Instruments 1999 No. 3210 as:

“New fishing vessels of 12 metres or more but less than 24 metres in length and existing fishing vessels of 12 metres or more but less than 45 metres in length, which are registered in the UK.”

Yours sincerely

Martin Hart
